William (Bill) E. Hesch, Esq., CPA, PFS will lead this workshop to help Business Owners find out how to avoid the top 10 mistakes they make in Succession Planning. Part of the problem is that Business Owners focus solely on what happens if the Owner dies but fail to plan adequately for a disability and there is no sense of urgency to put their Succession Plan in place.

Bill is an attorney, CPA and PFS who manages Hesch Law and Hesch CPAs in Oakley Square. He has been assisting business owners with their succession planning for over 30 years. Bill was a tax partner at Touche Ross /

Deloitte & Touche who assisted in developing national training for Financial and Succession Planning for Business Owners. He has extensive experience helping business owners with implementing their succession plan and has the personal experience of putting his own business succession plan in place over the past five years.
